ScanPro: Reliable, High Performance, Easy-to-Use

IMAGING Office Systems, Inc.

With industry-leading reliability, performance, the best image quality and ease-of-use, ScanPro all-in-one scanners offer an affordable, desktop solution for all your on-demand reader/scanner/printer needs. Together with AUTO-Scan Pro software, ScanPro scanners deliver 100 images per minute with exceptional accuracy. Discover for yourself why ScanPro is the overwhelming choice of libraries, research facilities, universities, governments, and other data-driven organizations worldwide.

ScanPro's reliability starts with heavy gauge steel construction and ball bearings used throughout the scanner to ensure consistent, smooth operation every time. Industry-best PRECISION-Guide rollers and precise micro-positioning capabilities of the roll film carriers ensure images can be positioned quickly and accurately every time, while providing continual image focus, wide range optical zoom, automatic film scanning, library quiet operation, and exceptionally low power usage. ScanPro checks all the boxes!
