

# Secure Box & File Storage

We offer state-of-the-art file storage facilities that offer a fully scalable, turnkey solution for storing and preserving boxes and files in a clean, climate controlled environment that meets all governmental and industry compliance standards.

Whether it's customer information, employee documents, or business partner information, storing your boxes and files with us helps you reduce the risk of data loss and security breaches. We do it by implementing and maintaining best practices for storage that include closely monitored climate control, state-of-the-art fire prevention systems, and security surveillance.

- Digital delivery of any document in storage within a matter of hours
- Secure, separate storage bays
- Capable of handling archived documents in any format
- Certified, bulk shredding available on demand or by schedule

**ASK ABOUT OUR SCAN-TO-ZERO BOX**  
STORAGE-TO-CLOUD DIGITAL CONVERSION PROGRAM THAT CAN  
HELP YOUR COMPANY GO 100% PAPERLESS.
